

Art of Aphrodite

For women who demand only the finest of *everything...*

### Taboo Tea Package

The Aphrodite Taboo Tea is set against a backdrop of classical music with an array of aromatic teas and delectable treats. This event contrasts the elevated ritual of formal tea with a discussion of some of our most taboo sexual subjects. While sipping exotic teas and nibbling on delicate pastries and sandwiches we will speak about the unspoken and ways in which you may explore these areas in your own life. Hostesses are asked to select several topics among a list provided prior to the tea.
